Sweet Briar College

Sweet Briar College sends greetings and good wishes, for the year 1920, to the principals of the High Schools and Private Secondary Schools, with whom the college has had such pleasant and valuable connections in the past.

We wish especially to call your attention to the aims and progress of the college and to bespeak your interest and co-operation for the future. As we have a waiting list every year, we naturally wish to enroll strong students who purpose to enter upon a regular four-years college course.

PROGRESS

In the spring of 1916, Sweet Briar enrolled 119 college students and 84 academy students.

To-day Sweet Briar has closed her academy and has enrolled 295 college students.

ADVANTAGES

Sweet Briar has four-year standard college courses leading to the degrees of A. B. and B. S. Latin is required, for the A. B. degree. Sweet Briar students receive credit for credit from all northern colleges for women and Sweet Briar degrees are recognized as the basis of graduate work by all the best universities.

The campus, of more than 2,500 acres, is unsurpassed for beauty, as the climate of the Blue Ridge Mountains in which the college is situated is unsurpassed for healthfulness.

Due to the salubrious climate and country surroundings, students almost without exception improve in health and strength during their college course.

Sweet Briar is broadening in its social influence. Its students represent 38 states, Serbia and France. The college is as well known in the north and the west as in the south and enrolls more students in actual numbers from sections other than the south than all other southern colleges of equal academic standing combined. At the same time, its position among the southern colleges and universities and its intercourse with these institutions enable it to maintain something of the social spirit and traditions of the old south.

REQUIREMENTS

Fifteen units for entrance:

3 in English;

3 in Mathematics;

4 in Latin or a Modern Language, or 3 in one

Language and 2 in another;

1 in History or Science;

4 elective from a liberal list of subjects.

The college believes in a close relationship between secondary schools and colleges and, therefore, receives students on certificates from standard schools.

We heartily invite your interest and consideration.

Yours sincerely,

Emilie H. McVea
